ACE is

Accounting – We provide support to all students enrolled in classes offered by the Oklahoma State University School of Accounting.

Collaborative – ACE offers a place to study, get directed help, and discuss your work with others. Because ACE is staffed by some of the top students in the accounting program, they’re able to provide assistance with coursework as well as advice about course sequencing and more.

Excellence – ACE is designed to help you succeed. Whether you’re a student who’s doing well and only has a quick question or a student who’s struggling and needs extra help, ACE is here for you!

ACE is my home away from home. Whether you are looking for help with homework or just need another accounting major to relate to, there is always a classmate in ACE who has gone through the challenges you are currently facing in your academic career. The ACE community has truly given me the most rewarding friendships and been the greatest opportunity of my Cowboy career.

ACE has been a fantastic opportunity for me, both as a student and as a tutor. Going through Intermediate Accounting my junior year was difficult, but fortunately ACE provided a unique way to study as well as gain a great understanding of the material. It always helps to get someone else’s perspective on a topic, especially when they’re another student. As a tutor, ACE has benefited me by helping me understand the material much better than when I was in the class. Working with other students not only helps them to do well, but it also helps me further my accounting knowledge.
