Career Goal Upon Graduation

What do you want to do when you graduate? Why did you come to college? What dreams do you have? Why are you choosing the degree that you have chosen?

Academic Goals

Companies typically set a GPA cutoff when considering candidates for internships or full-time positions, therefore you should try to achieve the best GPA you can. Most often, that cutoff is 3.0 although some companies within the energy industry, financial industry, and public accounting are likely higher (3.25 or 3.5). Please indicate what some of your academic goals are below:

- Maintain a GPA between ___ and ___
- Dean's Honor Roll (3.5)
- President's Honor Roll (4.0)
- Complete the Spears School General Scholarship Application
- Talk to Academic Advisor in your area of interest for your major

Notes
## Degree Specific Interests

While it is very common for you not to select a major your first year, beginning to explore your options and learn about the various degree programs will help you better understand which major or majors may provide you with the best preparation for your future career. Select one to three majors offered through the Business School or enter another program outside of business that may interest you in the checkbox labeled ‘Other’.
